

Interior Design Terms and Conditions

Interior design commissions will be charged an initial £100 call out fee (geographical depending). The designer will give advise on the project and discuss going forward, if needed.

If a client requires mood boards/designs, 2 designs per room will be charged at £250 plus vat.

Minimum spend on any interior design project is £10,000. If this figure is not reached, a daily amount of £200 will be charged instead until the project is complete.

If a client requires the designer to manage or work for them on a daily basis on other rooms which have not been allocated to the designer, a daily rate will be £200 per day (based on an 8 hour day) or (6 hour days £150).

The client and designer must agree to all products which will be used on the project. Once both parties agree to the final mood board/design, the designer will take 80% payment or full payment depending on the overall cost of the room and will then purchase all the items. Once purchased, the client cannot change their mind. If the client leaves the decision making to the designer, the client cannot change their mind once the item has been installed. The client will always be given a chance to choose all items.

After installation day, the designer will then invoice the client for the extra 20% of goods and any extra items used on the project and the designer fee which is 10% of the whole project.

Any items purchased for an Interior Design commission can not be exchanged or refunded after installation. If damages occur after installation, it is at Jo Sloanes Ltd discretion and we may issue a credit note once the items have been fully checked by our suppliers. No refunds will ever be given.

Given the current climate caused by Brexit and Covid 19 restrictions, our suppliers are under several difficulties with supply, boarder control, custom restrictions and delivery dates. If delivery dates are cancelled, delayed or completely changed caused by any of the above reason, it is out of Jo Sloanes Ltd control. We will still strive to keep our clients updated with any changes, even offering other alternative items where possible, which are in stock.
